ORDINANCE NO. 2020 – 5
SUMMARY OF CHANGES

Background information

In 2018, Malvern Borough Council hired the Brandywine Conservancy to evaluate the Borough’s Zoning Ordinance for amendments, with a focus being placed on Malvern Borough’s residential zoning districts. An ad hoc committee was formed with the purpose of undertaking a study of ways to ameliorate the impacts of recent residential development that often seems out of character or scale with the existing neighborhood. This was due to development patterns witnessed in the Borough over that past five (5) to seven (7) years.

Building and lot coverage were analyzed for every lot in the R-1 through R-6 zoning districts. It was determined that the R-7 zoning district was built-out and there was a low possibility of changes occurring. At the conclusion of the ad hoc committee’s work, the Malvern Planning Commission held a series of four (4) public meetings to discuss the data and findings, as well as formulate a recommendation to Borough Council.

On December 3, 2019, Borough Council reviewed all the work completed by the ad hoc committee, the Planning Commission, and the Brandywine Conservancy. The Borough Solicitor was authorized to prepare the necessary ordinance for adoption. Comments were received from the Chester County Planning Commission and the ordinance was authorized for advertisement on May 19, 2020 for a public hearing.

Summary of amendments

1. Building coverage

The proposed ordinance would reduce the “By Right” (BR) building coverage limits in the R-1 through R-6 zoning districts, while extending that coverage to a higher level subject to Conditional Use (CU) approval, except in the R-1 zoning district. To receive CU approval, the applicant would have to demonstrate that the structural characteristics of the building (mass, scale, and proportions; and roof height and form) are consistent with characteristics of both the Borough and the close-in neighborhood. The following table below provides a comparison:

<table>
<thead>
<tr>
<th>Zone</th>
<th>Current</th>
<th>Proposed</th>
</tr>
</thead>
<tbody>
<tr>
<td>R-1</td>
<td>10% BR</td>
<td>7.5% BR</td>
</tr>
<tr>
<td>R-2</td>
<td>20% BR</td>
<td>15% BR. 17.5% CU</td>
</tr>
<tr>
<td>R-3a/b</td>
<td>25% BR</td>
<td>20% BR, 25% CU</td>
</tr>
<tr>
<td>R-4</td>
<td>30% BR</td>
<td>25% BR, 30% CU</td>
</tr>
<tr>
<td>R-5</td>
<td>35% BR</td>
<td>27.5% BR, 32.5% CU</td>
</tr>
<tr>
<td>R-6</td>
<td>35% BR</td>
<td>27.5% BR, 32.5% CU</td>
</tr>
</tbody>
</table>
Under these changes, approximately 80% of existing properties in each zone would remain conforming By Right.

The proposed ordinance also establishes objective standards to be met by applicants before the Zoning Hearing Board (in the case of a variance) or Borough Council (in the case of Conditional Use).

2. Minimum Side Yards and Reduced Height Zones

In order to minimize the impact new construction has on an abutting property, the proposed ordinance includes a Reduced Height Zone (RHZ). This would require that any portion of a structure that is close to a side lot line would be restricted to “one and a half stories or 18 feet,” as opposed to the existing standard of “three stories or 35 feet.” The RHZ would accommodate covered porches and one-story additions, and could also be satisfied by pitched gables. New homes/structures in the RHZ would be setback five (5) feet from the front build-to line, only allows the RHZ on one side, and would require Conditional Use approval from Borough Council for use of the RHZ. The following are the limits subject to Conditional Use:

<table>
<thead>
<tr>
<th>Zone</th>
<th>Current Single Family</th>
<th>Current Twin (each side)</th>
<th>Proposed RHZ</th>
